TOURISM

YOUR TRAVEL GUIDE TO LOCAL FARM FRESH PRODUCTS

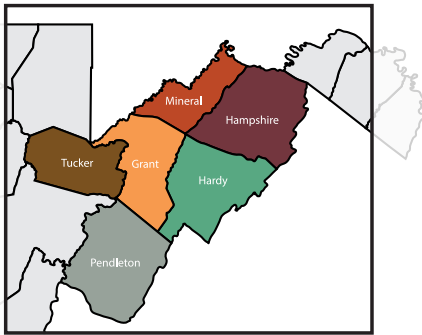

EXPLORE FARM FRESH PRODUCTS

Welcome to the Potomac Highlands of West Virginia. We hope you will enjoy the rich agricultural and rural scenery that our mountainous region has to offer. Please take the time to visit the agriculturalists, local food producers, and supporters in this brochure. These agricultural operations offer a variety of experiences ranging from farm stays or bed and breakfast on the farm, to purchasing local foods, navigating corn mazes and seasonal on-farm activities, picking fruit and vegetables, feeding animals, and recreational activities on the farm.

Buy local

Support your community! By purchasing local, fresh produce and protein, you are supporting local farm revenue and sustainability. Your support boosts the local economy by also supporting local businesses that collaborate with farms. By supporting local, you are improving the community's access to local foods, the sustainability of local food banks, and low-income food programs.

Support farmers

Agritourism helps support U.S. farmers generate revenue from recreational or educational activities, such as tours of a working farm or "pick-your-own fruits and vegetables." Beginning, small, and mid-size farms are increasingly exploring agritourism as a strategy to help revitalize rural economies, educate the public about where their food comes from, and preserve agricultural heritage.

Healthy lifestyle

Local produce is good for you, and is very fresh because it doesn't have to travel as far before it is consumed and can be picked at its peak ripeness. Once harvested, important nutrients remain resulting in the greatest nutritional value. The success of local farms is important for your lifestyle and the local environment because farms are great ecosystem balancers and farmers are natural stewards of the land.

DESTINATION CATEGORIES

**FARM MARKET**

Sale of at least two agricultural products

**LOCAL FOOD RETAILER**

Food available for purchase

**ON FARM STORE**

Locally grown produce for purchase

**U-PICK**

Customers harvest produce for purchase

**FOOD BANK**

Stocks of food
