Final Form: Revised March 2, 2010

# Eastern West Virginia Community and Technical College COURSE ASSESSMENT REPORT

Course Title and Number:	Academic Term and Year of Assessment Activity	
ATT 124	(Ex: Fall, 2010)	
Automotive Electricity/Electronics I (4 credits)	Spring 2014	
Report Submitted By: Doug Swick	Number of Students Assessed: 9 students completed assessment	
<b>Date Reported Submitted:</b> September 15, 2014		
Course Delivery Format (list all modalities used in sections assessed. Ex: web based, VDL, traditional section,		
hybrid course, etc.): lecture/lab course, traditional course delivery		

#### **Course Role in Curriculum**

Provide a description of the role the course serves in the curriculum (i.e. general education requirement, program technical core, restricted elective, etc.) Note all as appropriate.

ATT 124 is a technical core requirement (4 credits) for automotive students in both the certificate and associate degree programs. This course introduces students to the fundamentals and technology for diagnosis and repair of automotive electrical and electronic systems, including wiring diagrams, symbols and functions of the systems.

#### **Assessment Methods**

# Provide a description of the assessment process used. Include description of instrument and performance standards in description. Note all methods.

The ATT 124 course assessment report focuses specifically on electrical and electronic principles, and the diagnostic and service skills. Lab based task sheets were used as the basic data collection instruments for this assessment. Fifteen learning outcomes were assessed by analyzing results of classroom/lab observation based task sheets. The task sheets were completed for each student by directly observing the student performing each designated task. All task sheets were NATEF based for adherence to national automotive repair standard. The 15 learning outcomes were assessed through the application of 15 task sheets. In total, 87 scoring items were incorporated into this assessment report. Each item was weighted equally with a score of one point. Students could attain a total composite score of 87, a minimum composite score of 70 was necessary to meet the established performance standard of 80%. Scores were further analyzed in two broad categories:

- 1.) basic electrical/electronic principles-minimum score 33 out of 41; and
- 2.) diagnostic and service skills- minimum score 37 out of 46

The outcomes assessed are categorized into the 2 categories and are listed below:

#### **Electrical/Electronic Principles**

- 7. Define electrical symbols utilized in manufacturer's wiring diagram.
- 9. Define and apply principles of electricity, i.e., Ohm's Law.
- 11. Demonstrate the proper use of a digital multimeter during diagnosis of electrical circuit problems.
- 12. Check electrical wiring/circuits for continuity; determine necessary action.
- 26. Perform battery state-of-charge test; determine necessary action.
- 35. Identify electronic modules, security systems, radios, and other accessories that require reinitialization.
- 42. Perform charging system output test; determine necessary action.

## Electrical/Electronic diagnosis and service

- 8. Use wiring diagrams during diagnosis of electrical circuit problems.
- 16. Measure and diagnose the cause(s) of excessive parasitic draw; determine necessary action.
- 24. Perform solder repair of wiring.
- 31. Perform battery charge.
- 41. Differentiate between electrical and engine mechanical problems that cause a slow or no-crank condition.
- 47. Remove, inspect and install alternator.
- 51. Replace headlight assemblies, bulbs, taillight assemblies and circuit boards.
- 57. Diagnose incorrect horn operation.

## **Assessment Results**

Provide a summary of results including tables/charts. Incorporate information from previous assessments as appropriate. Append additional pages if necessary. If appending, include notation in box to "See Attached."

See Attachment for Task Sheets

Electrical/Electronic Principles: 89% of the students completed 33-41 tasks correctly, meeting the minimum standard as denoted through the Task Sheets.

Diagnosis and Service: 89% of the students completed 37-46 tasks correctly, meeting the minimum standard of 37 (i.e. 80% of the tasks).

Distribution of Scores for Outcomes and Composite Score per Task Sheet Analysis			
N=9			
Student ID #	Principle Score	Diagnosis Score	Composite Score
	(Standard: 33 out of 41)	(Standard 37 out of 46)	(Standard 70 out of 87)
1	33	19	52
2	28	45	73
3	41	46	87
4	41	46	87
5	33	39	72
6	41	46	87
7	41	46	87
8	41	46	87
9	33	37	70
Total Sample for Points	332	370	702
% at Minimum Standard	89%	89%	89%

Course Level Assessment Summary of Outcomes, Indicators and Results Course Title and Number: ATT 124 Automotive Electricity/Electronics I Number of students in assessment sample = 9 Number of Sections in Assessment = 1 Add additional rows to table if necessary				
Learning Outcomes (Insert learning	Indicator (Insert indicators used for each outcome:	Percent of Correct	Percent of Incorrect	Performance Standard
outcomes assessed	exam question, scoring rubric, etc. Be	Responses	Responses	Met (80%)*
during this cycle	specific)			(yes or no)
Composite Score	Total composite score: minimum of 70 out of 87 points for completed task sheets (Total points for sample=783, 702 answered correctly)	90%	10%	Yes
Outcome 1:	Task Sheets for:	90%	10%	Yes
Electrical/Electronic	Ohm's Law			
Principles	Use of Digital Multimeter Checking Continuity Perform Battery State of Charge Test Reinitialization Charging System Output Test Performance Standard: minimum of 33 out of 41 points Total points for sample=369; 332 answered correctly.			
Outcome 2:	Task Sheets for:	89%	11%	Yes
Electrical/Electronic	Wiring Diagrams in Diagnosis			
Diagnosis and Service	Measuring and Diagnosing parasitic draw Solder Repair of Wires Perform Battery Charge Diagnose Electrical Slow or No Crank Remove and Install Alternator Replace Lighting Components Diagnose Incorrect Horn Operation			

Final Form: Revised March 2, 2010

Performance Standard: minimum of 37 out		
of 46 points.		
(Total points for sample=414; 370 answered		
correctly).		

<sup>\*</sup>Please note if using a different minimum performance standard.

#### **Conclusions and Action Plan**

Provide a brief summary of conclusions derived based on analysis of data. Identify action plan for improvement or maintaining current performance levels. Append additional pages if necessary. If appending, include notation in box to "See Attached."

Based on an analysis of the completed task sheets for the designated learning outcomes, the results indicate that the learning outcomes have been met successfully by those students completing the assessment activities. The sampling includes all of the students that enrolled.
