What I discovered.

When I became President of Eastern West Virginia Community College one year ago, I discovered a young college with unlimited potential. During my first 90 days I discovered the beautiful Potomac Highlands region and saw an eagle while riding the Potomac Eagle through the trough. After visiting all of the school districts I discovered superintendents, principals, counselors and teachers who shared Eastern's vision to offer quality education through expanded partnerships. During my travels I met Chamber of Commerce directors, community leaders, Rural Development directors, politicians, parents and students. And, one question that was asked over and over, what was my vision for Eastern? I answered their question with a question. What is your vision for Eastern? Eastern's vision should be OUR vision.

My greatest discovery was finding dedicated faculty and staff, students and communities who are committed to Eastern's mission and success. As I start my second year we have a vision of where Eastern is going and how we will get there thanks to so many people from the college and its great region.

Eastern is proud to share our accomplishments and its Vision with you in this year's annual report. We are grateful for the financial support of the donors listed in this report. It is because of their commitment that Eastern continues to grow and explore new opportunities of how it can better serve the region and its citizens. I hope you will discover something new about YOUR community and technical college.

Eastern provides accessible and affordable educational opportunities for academic, technical, workforce training and life-learning for the Potomac Highlands regional community.
