

Professional Licensure Disclosure - CDL (Class A)

Eastern's CDL Program is registered with the U.S. Department of Transportation Federal Motor Carrier Safety Administration and our curriculum is in compliance with 49 CFR 380.

The U.S. Department of Education has implemented regulations (34 CFR 668.43 (a) (5) (v)) which requires Eastern to provide a list of all states/jurisdictions where the institution's curriculum, including applicable workforce programs, meets state educational requirements for professional licensure or certification. Please note that these disclosures are updated annually.

The following list of states and territories indicates where the Eastern's CDL training program meets requirements, does not meet requirements, or it has not yet been determined by Eastern if the training meets requirements. This information is for initial CDL Licensure by exam, not for transferring a CDL license.

Students are advised to review the information below and confirm CDL licensing requirements in their home states/territories before enrolling in this or any educational program, as state and territory licensing requirements may have changed since the information in this document was last updated. Website links and contact information for CDL licensing bodies in states/territories is provided at the end of this document.

States and Territories	State does not require licensure	Meets Requirements	Does Not Meet Requirements	Not yet determined
Alabama				X
Alaska				X
American Samoa				X
