# FREE DRONE TRAINING

**Fly your way into a new career pathway by earning hands-on experience in the rapidly advancing field of drone technology and application.**

This free two-day training offered by Eastern West Virginia Community and Technical College's Workforce Education Department will position you to earn an FAA Part 107 Commercial Drone Pilot Certificate. Areas of focus include aerial photography and cinematography, automated data collection for aerial mapping, and 3D modeling.

The course combines drone flight training, aeronautical knowledge, and the application of UAV technology to a number of career field disciplines. Instruction is equal parts classroom and hands-on flying with field study opportunities and executing professional-level drone missions to collect and process actionable data and imagery.

## **DETAILS:**

September 7-8 | 8:30 a.m. - 4:30 p.m. | Eastern's Main Campus in Moorefield

## **HOW TO ENROLL:**

To enroll, visit [easternwv.edu/workforce-education/drone-training/](http://easternwv.edu/workforce-education/drone-training/) or contact Melissa Shockey at [Melissa.Shockey@easternwv.edu](mailto:Melissa.Shockey@easternwv.edu) or by phone at (304) 434-8000 ext. 9253.
