- IT 242 = CIS 118
- IT 239 = CIS 2TC

In addition, several courses within the Eastern WV program share the same equivalencies to WVU courses. This will result in repeat indicators being applied to all previous completed courses. The final course grade will be the one resulting on the student's record and all other will fall into the "Repeat" category on the student's record and the hours not counted towards graduation. Students will need to take additional credit to earn the required 120 for graduation. They should work closely with their faculty/academic advisor to complete these remaining credits.

Students transferring to West Virginia University with an Associate of Arts, Associate of Applied Science, or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed at the PSC Office of Enrollment Services (304-788-6820).

The above transfer articulation of credit between West Virginia University and Eastern West Virginia Community and Technical College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
